Our philosophy

All our residents are special and have a different story to share, a different path travelled.

We love to get to know every person, enabling us to create an individualised care plan and environment that supports their independence and personal goals.

Rest Home and Hospital care

Homesteadcare Ilam is a family-owned 39 bed home dedicated to providing individualised quality care to all residents.

Our vision is to provide “care for the whole person,” in a peaceful homelike environment.

We are proud to offer Homesteadcare Ilam as a friendly, warm and inviting place to call home.

Our dedicated and nurturing team of nurses and care staff are managed by Hamish and Amanda Rose and we all understand that the gift of time and making the smallest things right can brighten any day. We provide a full continuum of care through our resthome and hospital facilities.

We place emphasis on integrity, dignity and respect. Homesteadcare Ilam is our residents’ home and we never lose sight of that.

Every room has a view out to lovely garden areas. Residents can enjoy walking around the gardens or sitting outside in the various patio or lawn areas.
